Matzen

3. Grigori Sidorenko, General Director of the SMV, made several visits to the Matzen-Prottes oilfield during the first part of September 1952. It is believed that the purpose of Sidorenko's visits was to supervise personally the preparations being made for a special commission which is to arrive in the near future from the USSR to inspect the SMV and USIA.
4. A number of improvements have recently been made in the SMV's installations in the Matzen-Prottes area, including the painting and renovating of the offices and buildings, and the arrival of new furniture.
